NOVUS DSS column with cable port attachment

NOVUS Duo Support System columns provide the capability of attaching DSS supporting arm elements. Attractive in looks and in price – they offer maximum flexibility. In durable, robust material quality, the system is guaranteed to give you a stunningly simple, secure and adaptable means of attaching supporting arms for TFT screens. The elegant, 445 mm long aluminium profile serves as a support column and is mounted through a hole in the desktop using the cable port mount. The cable port mount is specially shaped for conveniently passing through cables. Two cable clips are included as a practical aid for routing cables.

Cable port mount. This solution provides a sturdy mounting option in existing cable ports or between two desks, which are fixed with each other.

When used conventional.

This machine bears the GS approval of product safety.

Available in silver/ anthracite
